Probably because I told them to call you – but they claim they called a week ago (see email chain below)

Nick-
Arcelor Alleges that they did notify you – see below email.

Subject: CTP tank filling

Mike, tank filling will go faster than I was originally told. There should be no flow from the CTP from 8 a.m. Thursday (tomorrow) to 12 noon.

In regards to the dye test, Matt Oxsalida who works for Amendola Engineering did notify IDEM and the Coast Guard via email about the dye test last week, but I should have called again yesterday with specifics.
